Dear Keith and Will,

My initial results with your BlackHawk Powerhouse have been phenomenal! I have to admit, I was more than just a little skeptical in the beginning. Initially, I installed them at two of my five locations. Since I have added a third, and plan on installing them at all of my locations.

At one site, my electric bill, over the last 12 months, has averaged 6.06% of gross sales. At the other site, the electric bill has averaged 5.48% of gross sales over the last 12 months. Both units were installed on October 20, 2011 and the electric meters were read on November 8th. The results were that both site's electric bills were reduced to 4.00% and 2.83% of gross sales, respectively.

Sincerely,

Tim Jones
Owner and President
