Dear BlackHawk Energy Products, LLC:

I just wanted to take a moment to you express my complete satisfaction with the energy saving device that was placed at my home in April of 2011. This is indeed an outstanding product, and it has the capacity to save not only business entities energy, but also home residence as well. My utility bill at my dwelling house has always been substantially high, and in February of 2011 it was well over \$800.00.

When I became aware of the possibility that this device might assist me, I contacted Mr. Johnson, who was incredible to work with, and explained to him my situation. The device was delivered, and installed very professionally, and I am happy to say that the utility bills have declined substantially to around \$320.00 to \$350.00 each month and seems to be going down.

I would recommend and do recommend this to any homeowner who has high utility bills, and would definitely recommend it as well to any business that has substantial pulls on the Power Company's electricity.

If you require anything further, please let me know.

With Kindest Regards, I Remain,

Sincerely Yours,

A handwritten signature in blue ink, appearing to read 'Dan Cook'.
